

# Creating and managing multiple reader profiles

Check out how easy it is to manage multiple readers under one account.

Written by RFMS Support Team  
Updated over a week ago

Whether you are a parent with multiple children or a teacher who needs to manage students who don't have access to participate in your fundraiser at home, RFMS provides a simple and easy approach to manage readers under one account.

**IMPORTANT:** When you manage multiple reader profiles, you are required to manage their reading records as well as fundraise for them. To do this, just go to your Profile Management screen and click on the specific profile you want to manage.
